

Let's Be Friends!

EYFS Autumn Term 1

Sticky Knowledge

In Autumn, leaves turn red, brown and orange and fall off the trees. It also starts to get colder.

We come to school in the **morning** and go home in the **afternoon**. We go to sleep at **night**.

Everyone is different. We can celebrate how we all look different and like different things.

When I am kind to others, it makes them feel happy.

Home Learning Ideas

Talk about your family and why they are special.
Play games together that need a dice and counting.
Practice saying your sounds.

Asking questions

If I am not sure about something, I can ask a question. I can start my question with "why", "how", "what", "when" or "why".

Rhyming

Learning about words that rhyme is a great way to start learning about stories. Many stories for children have rhyming words to make them more exciting and easier to join in with. Try reading some stories and spotting the rhyming words.

Singing nursery rhymes is also a great way to learn lots of new words and help become better story tellers.

Helpful Books

We will be learning about our emotions using the story "The Colour Monster".

It is really important to be able to recognise our emotions and know what we can do to deal with each emotion and feeling. The Colour Monster helps us learn about this by associating colours with different emotions.

Happy

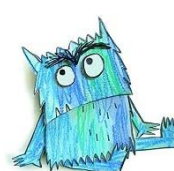

Sad

Anger

Calm

Fear

Love
